ITINERARY:

Supporting decentralization processes by
strengthening cultural development of
Ukrainian regions.

WELCOME ABOARD THE COMMUNITY CULTURE BUS!

The Community Culture Bus is a new project by IZOLYATSIA, Platform for Cultural Initiatives in partnership with the US Embassy in Ukraine. The Community Culture Bus is standard coach bus converted into a mobile culture center designed as a space for workshops, seminars, lectures, screenings and exhibitions. At each location visited by the bus, IZOLYATSIA's staff runs a core program of cultural activities, while also hosting a unique program in collaboration with the municipality.

MISSION:

The mission of the *Community Culture Bus* initiative is to support decentralization processes by strengthening cultural development of Ukrainian regions. The initiative achieves this by creating an alternative public space that functions as a free platform for cultural events, educational activities, and local community networking. *The Community Culture Bus* initiative proposes the celebration of cultural connection and diversity across Ukraine.

CORE PROGRAMS:

An Alternative Public Space

The Community Culture Bus acts as a mobile alternative public space for each location it visits. This includes our culture library with books and materials donated by IZOLYATSIYA, the US EMBASSY in UKRAINE; a space for exhibitions; and a lounge area with curated playlists. Visitors are invited to contribute, interact, get inspired, or simply chill out in this unique atmosphere.

Cultural Events

The Community Culture Bus presents a schedule of cultural events in collaboration with partners at each location it visits. These include film screenings, concerts, and more. The bus is equipped with audio and video equipment to host cultural events inside and outside, allowing for programming that is adaptable to both content curated by IZOLYATSIYA and proposed by our partners.

Educational Activities

The Community Culture Bus programming includes workshops run by IZOLYATSIYA's staff experienced in creative industries, and lectures by invited experts on diverse topics. Workshop participants can get hands-on experience with printmaking and other art techniques, and will be invited to donate works of their choice to the bus library. Lecturers and seminar leaders are coordinated with the interests and requests of local partners to meet the needs of each location with a unique program.

CALL FOR COLLABORATORS:

The Community Culture Bus is a fundamentally collaborative project. The initiative depends on the support of its partners for developing and maintaining our diverse cultural programming. We are always seeking new collaborators to keep this unique cultural initiative running. If you are interested in supporting our programming as a collaborator, partner or sponsor, please see the contact information below.

About IZOLYATSIA, Platform for Cultural Initiatives:

IZOLYATSIA is a non-profit, non-governmental platform for cultural initiatives, founded in 2010 on the site of a former insulation factory based in Donetsk. The foundation takes its name from the original manufacturer.
